Dear Sirs,

We are Department of Foreign Economic Relations of OJSC “Minsk Motor Plant” (Minsk, Republic of Belarus). Our company is the largest manufacturer of diesel engines of various applications (tractor, automobile, industrial) and spare parts to them in the CIS (former USSR).

We make engines certified to international ecological standards from Euro 0 to Stage 3A, 3B, Euro 4. The work is underway to start mass serial production of engines complying to EURO-4 and Stage 3B.

The Minsk Motor Plant's also manufactures diesel engines to power gensets.

The machinery equipped with engines manufactured by OJSC “Minsk Motor Plant” operates in more than 70 countries.

You can get more information on our company and products on our website:

[www.po-mmz.minsk.by](http://www.po-mmz.minsk.by).

Our enterprise welcomes all proposals by companies wishing to start mutually beneficial cooperation.

We suggest your using our engines for equipping the power genset manufactured by your company.

The Minsk Motor Plant's diesel engines advantages: high quality, reliability, simplicity of operation, efficiency, not high prices.

In case of your interest, please, send us your e-mail address to enable us to send you our brief company presentation and basic technical specifications of our engines.

Kind regards,

Deputy Head of Foreign Economic Relations  
Minsk Motor Plant  
Victor Kotionov.
