

Annotation

This operation bulletin contains the information about change of technical maintenance operation frequency “Cleaning of the pressure disks of the dry friction service brakes”.

Contents of changes

In subsection 6.3 “Technical maintenance procedure” in table 6.3.1 the following changes shall be introduced:

The information available:

Table 6.3.1

No of operation	Contents of operation	Frequency, every hours					
		8-10	125	250	500	1000	2000
73 ¹¹⁾	Wash the coarse fuel filter					X	
74	Cleaning of the pressure disks of the dry friction service brakes					X	

Shall be replaced with:

Table 6.3.1

No of operation	Contents of operation	Frequency, every hours					
		8-10	125	250	500	1000	2000
73 ¹¹⁾	Wash the coarse fuel filter					X	
74	Cleaning of the pressure disks of the dry friction service brakes				X		

In item 3 “Lubricants” of table 6.8.1 of subsection 6.8 “Filling and lubrication of the tractor with fuels, oils and lubricants” the following changes shall be introduced:

The information available:

Table 6.8.1 – List of fuels, oils and lubricants of tractors “BELARUS-1221T.2/1221.2/1221V.2/1221.3/1221.4”

3.10	Holes of the pressure disks of the dry friction brakes	10	MC-1600 Hot Brake TY 0254-035- 45540231-2012	Not available	Not available	Not available	0,0032± 0,0005	1000	On brakes operating in oil bath, lubrication is not needed
------	--	----	---	---------------	---------------	---------------	-------------------	------	--

Shall be replaced with:

Table 6.8.1 – List of fuels, oils and lubricants of tractors BELARUS-1221T.2/1221.2/1221V.2/1221.3/1221.4»
